

Project Servator

Promoting Big Pharma's Poisons

- Intelligence suggests that our so-called “honourable” politicians, those who promoted the jabs during the roll-out and booster stages for Gibraltar, were all given saline solutions.

- RGP rhetoric notwithstanding, our police never had it covered, did they?

PRESS RELEASE FOR IMMEDIATE RELEASE

JABRALTAR

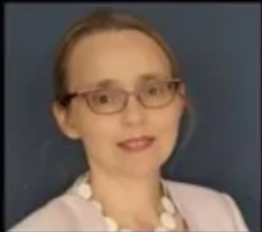

'It started here and it ends here'

'Andrew Bridgen attends via video giving his support'

Dr Aseem Malhotra

'I call on the Gibraltar Government & the Director of Public Health Dr Helen Carter that there needs to be a suspension of all mRNA vaccines'

Dr Clare Craig

'Too many people have had their voices silenced. Error correction depends on hearing all voices. Finally, people were allowed to gather and discuss in person what they've experienced'

Dr Aseem Malhotra Consultant Cardiologist & Dr Claire Craig diagnostic pathologist along with John Bowe and ex UB40 Matt Hoy attended an event in Gibraltar on the 30th of March including Andrew Bridgen MP (Via video) with Dr Aseem Malhotra calling for the Gibraltar government and director of public health Dr Helen Carter to suspend mRNA vaccines, they spoke to a packed room with 1% of Gibraltars population turning out. Gibraltar was the test bed of the world to roll out the jab and it is of growing concern that Gibraltar have their own vaccine injured in growing numbers and have no recourse for injury reporting. Gibraltar became the Guinea pig of the world. Being a small community people fear of speaking out or speaking openly about their injuries. The evening was very well received by all those who attended and they were given the opportunity to ask questions to the doctors and express their concerns. Aseem hopes that the Government take note and address this problem immediately that's being exasperated around the globe with the increasing adverse events. Currently there is no compensation in place for vaccine injured in Gibraltar.

Gibraltar, a vaccine champion, launches 'Operation Freedom'

Picardo's Pretzel Logic

Young. Fit. But unvaccinated. COVID killed him. If he had been vaccinated, he would likely have survived to tell the tale.

As [#COVID19](#) case numbers are rising in [#Gibraltar](#), I have been called by [@GHAWeb](#) today for my [#Booster](#) jab & the [#fluvaccination](#).

Both were expertly administered, with a 15min pause by CNM of Public Nursing Services, Susan Romero.

Thanks to the GHA & [@RAF_Gib](#) [@RoyalAirForce](#)

Great to hear @MattHancock mention #Gibraltar's brilliant @GHAWeb vaccination roll out! Our gratitude always for the way @DHSCgovuk has worked to assure our @pfizer supply with @FCDOGovUK @Convent_Gib @MODGibraltar @DefenceHQ @RAF_Gib @RoyalAirForce @RGPolice and @RoyalGIBRegt.

Tom Harwood ✓ @tomhfh

Yesterday Gibraltar became the first country in the world to complete its vaccination rollout. All adults in Gibraltar now vaccinated, Hancock tells the Commons.

A Jab Too Far for Destiny

Michael Jones is a British former professional boxer who competed from 1997 to 2007. He held the Commonwealth super welterweight title from 2002 to 2003 and the British super welterweight title from 2004 to 2005.

Michael had told me his age is now forty-eight, but Michael in his green ambulance officer's uniform still looks as fit as a fiddle, despite the health harming effects of the P&IZER vaccines. After he took poorly following the jab, Michael told me that the doctor / cardiologist had informed him he had just been unlucky. Michael gave me the impression that Michael strongly suspected that the vaccines given out were far from safe and effective.

Former GHA Ambulance Officer Michael “Destiny” Jones Downed by a Pfizer Jab

JABS2GIB – The Untold Story

His greatest concern had been for his child, who could have easily been left fatherless, if the stent operation had failed. This PFIZER vaccination experience had upset him. Michael mentioned that as an ambulance officer he had been called out to twenty-two visits to the elderly care homes, when the deaths peaked in January 2021.
